FIRE ! POLICE ! AMBULANCE !
CALL or DIAL the OPERATOR and SAY:

"I want to report a fire." "I want a policeman."
"I want an ambulance."

If you have to leave the telephone before the desired station answers,
tell the operator where help is required.

*The fastest service will be obtained by calling or dialing the fire or police number. For your convenience, as well as protection, spaces for inserting your fire and police emergency numbers are on the front cover of this directory. If you dial or call the operator, be sure to give your **telephone number, street address and the city, town or community from which you are calling.***

THE BELL SYSTEM'S POLICY

THE business of the Bell System is to furnish telephone service to the nation. This organization consists of the American Telephone and Telegraph Company and its Associated Companies, of which The Southern New England Telephone Company is one. The American Telephone and Telegraph Company now has about 675,000 stockholders. The employees of the Bell System, including those of the Western Electric Company, number about 275,000.

THESE facts have a most important bearing on the policy of the management in carrying out its four-fold obligation to the telephone-using public, to the telephone art, to its investors and to its employees.

THESE responsibilities and the Bell System's policy in meeting them, may be summarized as follows:

1. The fact that the responsibility for such a large part of the entire telephone service of the country rests solely upon the American Telephone and Telegraph Company and its Associated Companies imposes on the management an unusual obligation to the public to see that the service shall at all times be adequate, dependable and satisfactory to the user.
2. The fact that so large a share of the responsibility for meeting the telephone needs of today rests upon the Bell System implies that it must also be responsible for meeting the needs of the future. It has a peculiar obligation to carry on the research and experimentation necessary for the further development of the telephone art.

3. The fact that the ownership of Bell System securities is so widespread and diffused imposes an unusual obligation on the management to see that the savings of these hundreds of thousands of people are secure and remain so.

4. The policy which recognizes these obligations to the telephone-using public of today and of the future and to its investors recognizes equally the Bell System's responsibilities to its employees. It is and has been the policy and aim of the management to pay salaries and wages in all respects adequate and just and to make sure that individual merit is discovered and recognized.

OBVIOUSLY the only sound policy that will meet these obligations is to continue to furnish the best telephone service at the lowest cost consistent with financial safety.

EARNINGS must be sufficient to assure the best possible telephone service at all times, the further development of the art and the continued financial integrity of the business. Earnings that are less than adequate must result in telephone service, in the present and in the future, that is something less than the best possible. Earnings in excess of these requirements must either be spent for enlargement and improvement of the service furnished or the rates charged for the service must be reduced.

THIS is the four-fold basis of the fundamental policy and purpose of the Bell System—the most telephone service and the best, at the least cost to the public, consistent with these obligations.

General Information

Office Hours

The Business Offices of the Company are open from 8.00 A. M. to 5.00 P. M., except Saturday, when they are open from 8.00 A. M. to 12 noon.

In Corresponding with the Company

When corresponding with the Company relative to service or accounts, please give your exchange and telephone number.

Bills for Service

Bills for telephone service are rendered monthly, payable within ten days from date of receipt.

The subscriber is responsible for all charges for service over his telephone, including toll calls accepted at his telephone on which charges have been reversed.

If payment of account is made in person at one of our offices or authorized collection agencies, the bill with stub attached should be presented. If payment is sent by mail, the bill stub only should be enclosed with remittance.

Replace Receiver on the Hook

Always replace the receiver on the hook properly with nothing preventing the hook from being fully depressed. When a call is answered at a main telephone and conversation is held at an extension, the receivers should be replaced at both telephones. If the receiver is left off the hook, a report of "Busy" or "Out of Order" will be given those calling you, and you may experience delay when you wish to call later.

Party Line Service

All parties on the line have equal rights; for that reason calls should be limited to five minutes' duration. To make for efficient service and to prevent annoyance to others the following should be observed:

Answer your own signal. If there is any confusion about the rings report the fact promptly to the Chief Operator.

When you wish to call, remove the receiver. If the line is in use, restore the receiver carefully to the hook at once, and wait for those using the line to finish.

Identification of Employees

Each employee of the Company authorized to repair, install, or remove its equipment, is provided with an identification badge bearing the Company's name. Permit access to premises for telephone purposes only to those able to furnish that means of identification.

Attachments to Telephones

This Company is responsible for giving efficient telephone service. The equipment and apparatus furnished you have been designed to produce the best telephone results; therefore we cannot permit the attachment of devices and so-called improvements which may prove detrimental to the service; and to protect the service the Company will remove such devices. We are prepared to furnish apparatus to meet special conditions.

Telegrams by Telephone

When sending telegrams, cablegrams or radiograms from Dial Telephones, follow the instructions shown under the listings

of the Telegraph Companies in this directory.

From Manual Telephones, call by name the Telegraph Company desired. Simply say to the operator, "Postal" or "Western Union."

Pay Station Service

Wherever a Blue Bell sign is displayed, the telephone is available to all.

As a local message is a conversation of not more than five minutes between any two stations in the local exchange, an additional deposit of five cents is required for each additional five minutes or fraction thereof.

Changes in Directory Listings

Notification as to new listings, changes or corrections should be made to the Business Office at once.

Additional Listings

For each subscriber a single line insertion in the alphabetical list is made without charge. Customers may arrange for additional listings, under regulations for such listings, to be placed in the alphabetical section of the directory at an additional charge.

Advertising of Telephone Numbers

The use of correct telephone numbers on stationery and business cards and in advertising matter contributes toward ease in obtaining rapid and accurate telephone service. However, attention is called to the fact that the needs of the service occasionally require changes in telephone numbers. It will assist in maintaining good service if telephone numbers displayed on trucks, signs, letter-heads, business cards, etc., are corrected promptly in case of change in telephone number.

Errors in this Directory

Inasmuch as the Company makes every reasonable effort to compile its directory listings as accurately and completely as possible, despite which errors and omissions occur therein, it is therefore stipulated and agreed between the Company and its subscribers, as part of its expressed or implied contract to furnish telephone service, that it can not and does not assume any liability for errors and omissions occurring in its directory listings which are caused by or result from inadvertence or negligence, over and above its obligation to refund to the subscriber or customer, at the monthly rate, for each charge listing erroneously made or omitted for the period during which such error or omission continues, after reasonable notice thereof in writing to the Company. Therefore each subscriber or customer should check his listing and notify the Company of any error or omission therein so that it may be corrected.

To Obtain Directories

If you require additional copies of this directory, communicate with the Business Office.

If you require a copy of a directory other than the one regularly distributed to you, the Business Office can secure it for you. A nominal charge is made for other companies' directories.

How to Use the Dial Telephone

Obtain the Correct Number

Always obtain the correct telephone number from the current issue of the telephone directory. If the desired listing is not in the directory, Dial 113 and ask "Information" for the number. When you secure the number from "Information", hang up the receiver for a few seconds before making your call.

Listen for the Dial Tone

Before dialing, place the receiver to your ear and listen for the dial tone. The dial tone is a "humming" sound which will be heard as soon as the equipment is ready for your call. Do not start to dial until you hear it.

If the dial tone is not heard within a few seconds, hang up your receiver, wait for a second or two, and try again.

In case no dial tone is heard after repeated attempts, report the condition to "Repair Service" (Dial 114) using another telephone.

How to Dial

For example, to call 5-9221 remove the receiver and after hearing the dial tone proceed as follows:

1. Place your finger in the opening in the dial through which the figure 5 is seen.
2. Pull the dial around in a clockwise direction until your finger strikes the finger stop.
3. Remove your finger from the opening and without touching the dial let it return to the normal position.
4. Proceed in the same way with the figure 9 and then the figures 2, 2, 1 in the order they appear in the number.

To call a number ending in a party line letter, proceed in the same manner as outlined above; then immediately dial the party line letter W, J, R or M.

If you find that you have made an error in dialing, or if your finger slips before you have pulled the dial around

to the stop, or if you jiggled the receiver hook, hang up the receiver for a few seconds. Then take the receiver off, listen for the dial tone, and after hearing it, dial all the figures of the number again.

Wait for the Ringing or Busy Signal

The ringing signal is an intermittent "Burr-rr-ing" sound heard at regular intervals after the complete number has been dialed. If after hearing that signal repeated for a short time you obtain no answer, hang up the receiver and call again when you think you may obtain an answer.

The busy signal is a rapid "buzz-buzz-buzz" sound which indicates that the called line is busy. When you hear that signal, hang up the receiver and call again a little later.

Either the ringing or busy signal should be heard soon after the complete number has been dialed. If, after waiting about a half minute, you do not hear either the ringing or busy signal, hang up the receiver for a few seconds, then remove it, and after hearing the dial tone, dial the complete number again. If on a second attempt you do not hear either the ringing or busy signal, Dial "Operator" and report the condition to her.

When You Have Finished Talking

Hang up your receiver. That will disconnect your line from the called telephone. Leave your receiver on the hook for a few seconds before starting to make another call.

How to Call the Operator

Telephone operators are always on duty. If you need assistance in obtaining a connection remove the receiver from the hook, listen for the dial tone, place your finger in the last opening of the dial marked "Operator", turn it around once to the finger stop and then release it. An operator will answer.

If you wish to attract the attention of an operator, on a connection which she has established, you may do so by depressing and releasing slowly the receiver switch hook.

How to Use the Dial Telephone---Cont'd

How to Call Numbers with a Name Prefix

To call numbers with a prefix, such as "Enterprise 9048," Dial "Operator" as explained in the preceding paragraph and when the operator answers, give her the desired number as listed.

Party Line and Extension Telephones

If your telephone is on a party line or there are extension telephones on your line, always listen for the dial tone before starting to dial, to be sure that the line is not in use. If no dial tone is heard, ask if the line is being held, and if no response is received, hang up the receiver for a few seconds and then make another attempt. If while dialing you hear someone else come in on the line, or hear successive clicks in the receiver, it indicates that another person on your line is trying to call. Inform him that the line is in use, and request him to hang up his receiver. When he does so, hang up your own receiver for a few seconds, then remove it, listen for the dial tone, and dial the complete number.

To Call Another Subscriber on Your Line

To call another subscriber on your line it will be necessary to refer to the party line card sent you. This card

lists the other parties on your line and gives the procedure to be followed in calling them.

Note: Each subscriber on a dial telephone party line has an individual number in the directory. If you do not know how to call another subscriber on your line, and have mislaid your party line card, dial "Operator" and give her the telephone number listed in the directory, telling her you are calling another telephone on your line.

To Make a Call from a Dial Pay Station Telephone

Remove the receiver, deposit a coin, and then listen for the dial tone. As soon as you hear the dial tone, dial the desired number. If you wish to reach an operator for assistance or to pass a toll call, Dial "Operator." **The coin must be deposited before you begin dialing.** If for any reason the call is not completed, or if it is one for which no charge is made (such as calls to "Operator" for assistance, "Information," "Repair Service," or "Telephone Company") the deposit will be returned. On out-of-town calls, the initial deposit will be returned, and afterwards the correct amount for the call will be requested by the operator.

How to Use the Manual Telephone

Obtain the Correct Number

Always obtain the correct telephone number from the current issue of the telephone directory before you make a call. If the person or firm desired is not listed in the directory, call "Information."

How to Pronounce Telephone Numbers

If you drop your voice in giving numbers over the telephone, the last figure is not heard. To avoid this, all numbers should be pronounced with a slight pause between groups of figures and with a rising inflection at the end, as for example:

456 4-56?
1234-2 12-34 ring 2?
367-W 3-67-W?
3100 Three one-hundred?

The "Ringing" and "Busy" Signals

While you are waiting for the called number to answer, you should in most cases hear either the **ringing** or **busy** signal.

The **ringing** signal is an intermittent burr-rr-ing sound, indicating that the

called number is being rung. If you receive no answer after hearing this signal repeated for a reasonable time, you will understand that there is no one within hearing to answer.

The **busy** signal is a rapid buzz-buzz-buzz (quicker and louder than the ringing signal) indicating that the line of the called number is busy. When you hear the busy signal, just hang up the receiver without waiting for a report from the operator, and call again later.

Where these audible signals are not provided, the operator will give you a report of either "They do not answer" or "The line is busy."

To Recall the Operator

To recall the operator, move the telephone hook s-l-o-w-l-y up and down. This causes a small electric lamp in front of the operator, alternately to flash and go out, thus attracting her attention. A quick movement of the receiver hook is useless, since it may not operate the signal lamp.

How to Make Out-of-Town Calls

Quicker service can be furnished on all classes of toll calls if the number is given to the operator. If you do not know the number of the distant telephone, ask "Information" for it. (From dial telephones Dial 113).

You may use either the station-to-station service to out-of-town points or the person-to-person service at a higher rate, as outlined below.

TO MAKE A STATION-TO-STATION CALL, give the name of the place and telephone number you want to your LOCAL Operator (Dial "Operator").

TO MAKE A PERSON-TO-PERSON CALL, call Long Distance, (Dial "Operator") and give her the name and either the telephone number or address of the person with whom you wish to talk.

Station-To-Station Calls from One Station to Another

Station-to-Station calls are calls on which you do not ask the operator for any particular person or particular private branch exchange station, for example, a call for Philadelphia, Walnut 1234, on which you will talk with anyone who answers.

Station-to-Station calls are handled more rapidly and at lower rates than

person-to-person calls. Reduced rates, generally, are in effect during evening and night periods. See "Evening and Night Reduced Rates" on page 7.

Charges begin when the connection is established between the calling and the called station. Report charges apply only on collect calls. See "Collect Calls" on page 7.

Person-To-Person Calls from One Person to Another

Person-to-person calls are calls on which you ask the operator to call a particular person to the telephone or to reach a particular Private Branch Exchange extension telephone.

For example, a call for "Mr. Paul Smith at Boston, Hancock 3340" or for "Cortlandt 7-4567, Extension 147, New York City," or for "Mr. Richard Roe at 200 State St., Chicago."

The rates are somewhat higher than station-to-station rates but no charge other than a report charge is made unless the desired person or extension telephone is reached. There is no reduction during evening and night hours. See table on page 7.

Charge is made from the time that conversation with the particular person or with some one at the designated extension telephone starts.

General Toll Information

Rates

For rates to Connecticut Toll Points, see page 8.

For rates to certain cities outside of Connecticut, see page 9.

For rates to other Out-of-Town Points, call Long Distance (Dial "Operator").

Quoting Charges on Completed Calls

When you desire that the total charge on a completed call be reported, at the time of passing the call, please ask the operator to "quote charge."

Notification at End of Initial Period

When you wish to be notified at the expiration of the initial period of conversation, please make request to the operator at the time of passing the call.

Evening and Night Reduced Rates

These rates do not apply on person-to-person calls, nor do they apply on calls other than to points within the confines of the United States and to points in Canada.

ON - STATION-TO-STATION CALLS where the station-to-station day rate is more than 35 cents, Evening Rates are in effect between 7:00 P. M. and 8:30 P. M., and Night Rates between 8:30 P. M. and 4:30 A. M. Rates applying at the time a connection is established apply to the entire message. See table below.

Appointment Calls

A definite time for conversation may be specified in placing a person-to-person call. Such calls are known as "Appointment Calls," but the Company cannot guarantee completion of the connection at the exact time specified. Appointment calls take the person-to-person rate. See table below.

Report Charges

A nominal charge, known as a "Report Charge," may apply to uncompleted person-to-person, appointment and messenger calls, and

on calls on which reversal of the charges is requested but refused. This charge is to partially compensate for the additional operating and use of the toll lines necessary to complete calls. In no case will a report charge be made to a particular person in addition to the regular charge for the call. No report charge will be made if failure to establish the connection is due to "Busy," "Don't Answer," "Out of Order" or similar condition at the called station. See table below.

Messenger Calls

Person-to-Person calls may be made for an individual not having telephone service. In placing the call ask to have a messenger sent for the called person. Such calls are known as "Messenger Calls."

This class of service takes the person-to-person rate. The charge made by the messenger is added to the Company's charge for the call.

Collect Calls (Charges Reversed)

Upon request of the calling party the charges on all person-to-person and on certain station-to-station calls (as explained below) will be collected at the called station if such charges are accepted. Requests to have the charges collected in this way should be made at the time the call is given to the operator. If the call is not completed because of the refusal of the called party to accept the charges, a report charge will be made against the person calling.

Station-to-station calls may be made collect at the station-to-station (Day, Evening or Night) rate where the rate is 25 cents or more. Where the rate is 20 cents, station-to-station calls may be made collect for 25 cents. Where the rate is less than 20 cents, station-to-station calls may be made collect at the corresponding person-to-person rate. Calls on a collect basis are permitted only to points within the confines of the United States and to points in Canada and Cuba.

TABLE FOR DETERMINING TOLL CHARGES

THE BASIC DAY STATION-TO-STATION RATES APPEAR IN BOLD TYPE IN THE LEFT-HAND COLUMN, IN THE OTHER COLUMNS ARE GIVEN THE CORRESPONDING RATES FOR OTHER CLASSES OF TOLL SERVICE, OVERTIME CHARGES AND REPORT CHARGES.

International Telephone Service

Telephone service is available from your telephone to any point in Canada, Cuba, England, Scotland, Wales and Mexico; to the principal cities of Australia, Egypt, continental Europe, India, Ireland, Japan, Palestine, Panama and the Canal Zone, Siam, South Africa, South America, the Dutch East Indies and to Bermuda and the Bahama, Balearic, Canary, Hawaiian and Philippine Islands.

Communication can be secured by merely calling Long Distance in the usual way.

Rates for three minute conversation with typical foreign cities and countries from this area are:

Australia	\$45.00	Buenos Aires	\$30.00	Paris	\$31.50
Berlin	33.00	Dublin, Ire.	31.50	Rome	34.50
Bermuda	15.00	London	30.00	Warsaw	34.50

Ship to shore service is now available to and from several Atlantic liners including the Albert Ballin, Aquitania, Berengaria, Bremen, Caledonia, Conte di Savoia, Deutschland, Empress of Britain, Europa, Hamburg, Homeric, Ile de France, Majestic, New York, Olympic, Resolute and Rex. While these vessels are within 500 nautical miles of New York the rate is \$9.00 for the first three minutes and \$3.00 for each additional minute. When the distance is 500 nautical miles or more from New York the rate is \$18.00 for the first three minutes and \$6.00 for each additional minute. The same service, at \$9.00 for the first three minutes, also is offered to the Monarch of Bermuda and the Queen of Bermuda, plying between New York and Bermuda.

For additional information regarding out-of-town calls, see pages 6 to 8 inclusive.

An advertisement in the Telephone Directory will soon prove its worth to you. Test it and see your business increase.

DO YOU SELL TRADE MARKED GOODS?

If you do, you should be listed as a dealer under the Trade Mark Heading of the goods you handle.

This form of advertising is new. It is proving successful—and growing rapidly! Let us explain what Trade Mark Headings will do for you.

TO WOMEN WHO LEAVE THEIR HUSBANDS

THE WOMAN who leaves her husband for a visit should remember his household helplessness. He's so hopeless, even with his wife near to lend a helping hand—he becomes doubly so when distance separates them. Help him to overcome his lonesomeness and add to your own peace of mind regarding him while you're away.

THE COST IS SO SMALL

Just telephone to him occasionally. If you call by number in the daytime, twenty-five cents will pay for a 25 mile call . . . fifty cents, 64 miles . . . one dollar, 174 miles. Reduced rates are in effect on number calls over 42 miles away after 7 p. m.

THE SOUTHERN NEW ENGLAND TELEPHONE COMPANY
